A tender is responsive if it conforms to all the eligibility and other mandatory requirements in the tender documents.

Pursuant to section 79(2) of the Public procurement and Asset Disposal Act, 2015

A responsive tender shall not be affected by:-

(a) Minor deviations that do not materially depart from the requirements set out in the tender document: or

(b) Errors or oversights that can be corrected without affecting the substance of the tender.

A deviation described in subsection 79 (2) (a) shall be quantified to the extent possible and be taken into account in the evaluation of tenders

Pursuant to section 82 of the Public procurement and Asset Disposal Act, 2015

There is no correction of errors. The tender sum as submitted and read out during the tender opening shall be absolute and final and shall not be the subject of correction, adjustment or amendment in any way by any person or entity.

4.1.2 Non-Substantial deviations

If a bid is not substantially responsive, it will be rejected by the Employer and may not subsequently be made responsive by correction or withdrawal of the non-conforming deviation or reservation. Each bid was checked for completeness. A Bid is responsive if it conforms to al

Therefore, were **ACCEPTED** for further evaluation.

Introduction

Where the lowest evaluated responsive tenderer under the **provision of the Public Procurement and Asset Disposal Act, 2015 Section 83**, is determined not to be qualified, the tender shall be rejected and a similar confirmation of qualification shall be conducted on the tenderer who submitted the second lowest evaluated responsive bid. It was conducted on tenders that had passed the preliminary evaluation for technical conformity. The technical evaluation precedes the financial evaluation. If the tender does not meet the technical requirements, it is not responsive and does not proceed to financial evaluation

Technical Evaluation

This section applied to qualified tenderers from qualification criteria below. It contains all the factors, methods and criteria used for technical evaluation. The information to be provided in relation to each factor and definitions of the corresponding terms were included in the respective application forms (schedules)

The committee examined tender documents and scored them based on their validity, accuracy and quality. Where the tenderer failed to submit the mandatory requirement, the tenderer was disqualified.

Tenderers who provided all mandatory requirements and specified percentage score in technical evaluation and above proceeded to the financial evaluation.

Bidders who met all technical requirements and scored **70%** and above in technical evaluation proceeded to the financial evaluation.

Technical results observations

Reasons why any tenders were rejected details of any minor deviations and the way in which such deviations were quantified and taken into account in the evaluation and comparison of the tenders;

Candidates will require scoring a minimum of 70 to proceed to the next stage (financial stage) for further evaluation. Those who score below 70 will be eliminated at this stage from the entire evaluation process and will not **BE CONSIDERED FURTHER**. However, the system threshold was 70 marks while the bill of quantities was 60 marks. Therefore the committee used the system threshold as applied on the tender document

Financial evaluation

Upon completion of the technical evaluation the evaluation committee conducted a financial evaluation and comparison to determine the evaluated price of each tender.

- The evaluated price for each bid shall be determined by:-
- Taking the bid price in the tender form;
- Taking into account any min or deviation from the requirements accepted by procuring entity
- where applicable, converting all tenders to the same currency, using the Central Bank of Kenya exchange rate prevailing at the tender reopening date;
- Applying any margin of preference indicated in the tender document.

Note: Any errors in the submitted tender arising from a miscalculation of unit price, quantity, and subtotal and total bid price shall be considered a major deviation that affects the substance of the tender and shall lead to disqualification of the tender as non-responsive.

Recommendation

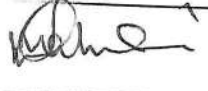

Pursuant to the provision of the Public Procurement and Asset Disposal Act, 2015 section 86(a); the committee recommends that Tender for the **Proposed Erection and completion of Administration Block For MTC-Mt. Elgon -Negotiation No 18734 -2021/2022**-be awarded to **SKY PORT LOGISTICS LIMITED P.O BOX 1672-50200 BUNGOMA** at **KSH.19,258,876.80/-- inclusive of VAT.**
