CHAPTER ONE

PREFACE

Hon. Speaker,

Pursuant to the provisions of Standing Order No. 205 of the County Assembly of Bungoma Standing Orders all the reports of the Sectoral Committee on Agriculture, Livestock, Fisheries, Irrigation and Cooperative Development adopted by the House were officially submitted to the County Executive Committee Member (CECM) responsible for Agriculture, Livestock, Fisheries, Irrigation, and Cooperative Development for implementation.

The CECM is required to report back to the Assembly within sixty (60) days, detailing actions taken in response to each resolution in accordance with Standing Order 205(2) of the County Assembly of Bungoma Standing Orders and Article 183(3) of the Constitution of Kenya.

Despite the legal requirement, the Committee notes with serious concern that the CECM has consistently failed to submit any implementation status reports on the resolutions adopted by the House for the year 2022 and 2023. This persistent non-compliance undermines the oversight role of the County Assembly and contravenes the principles of accountability and transparency as outlined in the Constitution.

In response, the County Assembly resolved to conduct a formal interrogation of the Department to assess the progress, challenges and level of compliance in implementing the following resolutions and Legislation.

During the period under review, the County Assembly adopted the following reports, all of which were subsequently conveyed to the department for implementation:

1. Report on Implementation status of farm input support program adopted on 28/02/2023 reference BCA/CC/6 Vol.IV(10) dated 1/03/2023
2. Report on the Bungoma County Government nine months financial statements for FY 2022/2023 with respect to the department of Agriculture, Livestock, Fisheries, Irrigation and Cooperative Development adopted on 03/10/2023 reference BCA/CC/6 Vol.IV(12) dated 6/10/2023.
3. Report on the status and impact of dams irrigation, schemes and water pans in the

County adopted on 1/11/2023 reference BCA/CC/6 Vol.IV(25) dated 7/11/2023.

County Legislations requiring implementation

1. The Bungoma County Co-operative Societies Act, 2023
2. The Bungoma County Agricultural Produce Cess Act, 2017

The Committee invited the County Executive Committee Member to appear before it for interrogation. The invitation was formally communicated via a letter referenced CAB/ADM/6VOL.V (93).

The interrogation was held on 16th May 2025 at 2:00 p.m. within the County Assembly Precincts. This report contains the responses from the department, committee observations and recommendations.

1.1 MANDATE OF THE COMMITTEE

Hon. Speaker,

The Sectoral Committee on Agriculture, Livestock, Fisheries, Irrigation and Cooperative Development derives its mandate from the provisions of Standing Order 217 (5) of the Bungoma County Assembly Standing Orders which shall be to:

- a) Investigate, inquire into, and report on all matters relating to the mandate, management, activities, administration, operations, coordination, control and monitoring of budget;
- b) Consider quarterly reports of the assigned departments and report to the House within twenty-one (21) sitting days upon being laid;
- c) Study the programme and policy objectives of departments and the effectiveness of the implementation;
- d) Study and review all County legislation referred to it;
- e) Study, access and analyze the relative success of the departments as measured by the results obtained as compared with their stated objectives;
- f) Investigate and inquire into all matters relating to the assigned departments as they may deem necessary, and as may be referred to them by the County Assembly;
- g) To vet and report on all appointments where the constitution or any law requires the House to approve, except those under *Standing Order 204* (Committee on Appointments); and

- h) Make reports and recommendations to the House as often as possible, including recommendation of proposed legislation.

1.2 COMMITTEE MEMBERSHIP

Hon. Speaker,

The Committee on Agriculture, Livestock, Fisheries, Irrigation and Cooperative Development as currently constituted comprises the following Members:

1. Hon. Wafula Waiti	Chairperson
2. Hon. Idd Owongo	V. Chairperson
3. Hon. Busolo Sudi	Member
4. Hon. Everlyne Mutiembu	Member
5. Hon. Meshack Simiyu	Member
6. Hon. Anthony Lusenaka	Member
7. Hon. Simotwo Franklin	Member
8. Hon. Jerusa Aleu	Member
9. Hon. Alfred Mukhanya	Member
10. Hon. Caleb Wanjala	Member
11. Hon. Edwin Opwora	Member
12. Hon. George Tendet	Member
13. Hon. Benard Kikechi	Member
14. Hon. Martin Chemorion	Member
15. Hon. Nganga Sifuna	Member

1.3 ACKNOWLEDGEMENT

Hon. Speaker,

The Sectoral Committee on Agriculture, Livestock, Fisheries, Irrigation and Cooperative Development wishes to express its sincere appreciation to your Office and that of the Clerk of the County Assembly of Bungoma for the invaluable logistical, technical, and administrative support extended to the Committee throughout the execution of its oversight mandate.

Further, I acknowledge with deep gratitude the unwavering commitment, dedication, and professionalism demonstrated by Members and their active participation and deliberations which greatly enriched this report.

Additionally, the Committee extends appreciation to the Secretariat assigned to support its functions.

Hon. Speaker,

It is now my honour and privilege, on behalf of the Sectoral Committee on Agriculture, Livestock, Fisheries, Irrigation and Cooperative Development, to table this report before this Honourable House for consideration and adoption.

Signed  Date..... 26/6/2025

Hon. Wafula Waiti, MCA- NAITIRI KABUYEFWE

Chairperson, Committee on Agriculture, Livestock, Fisheries, Irrigation and Cooperative Development

CHAPTER TWO

Hon. Speaker,

This chapter provides a comprehensive examination and analysis of the implementation status of committee reports and County Legislations in respect to the Department of Agriculture, Livestock, Fisheries, Irrigation and Cooperative Development.

1. Report on Implementation status of farm input support program adopted on 28/02/2023 reference BCA/CC/6 Vol.IV(10) dated 1/03/2023
2. Report on the Bungoma County Government nine months financial statements for FY 2022/2023 with respect to the department of Agriculture, Livestock, Fisheries, Irrigation and Cooperative Development adopted on 03/10/2023 reference BCA/CC/6 Vol.IV(12) dated 6/10/2023.
3. Report on the status and impact of dams irrigation, schemes and water pans in the County adopted on 1/11/2023 reference BCA/CC/6 Vol.IV(25) dated 7/11/2023.

County Legislations requiring implementation

1. The Bungoma County Co-operative Societies Act, 2023
2. The Bungoma County Agricultural Produce Cess Act, 2017

The following are the House resolutions for each of the aforementioned reports, departmental response and committee observations and recommendations.

2.1 Report on Implementation status of farm input support program

Resolution 1

THAT, the department is hereby directed to review the policy and further develop regulations to comply with regulation 197(1)(d) of the Public Finance Management(County Governments) Regulations, 2015 on administrative Cost.

Department Response

In the Financial year 2023/2024, the total payment for Maize and fertilizer was 319,060,915 (open tender). Administrative cost amounted to 5.2million shillings (4.5Million on vetting committees and 700,000 on Monitoring and evaluation) translating to 1.63% of the total cost. In FY 2024/2025, the total payment for fertilizer and seed was 180million (Government to Government). The estimated administrative cost which is to be spend is Kshs. 5.1million (Vetting committee - 4.5million and M&E - 600,000) translating to 2.83% of the total cost.

Committee observation

The department is yet to develop Regulations to comply with regulation 197(1)(d) of the Public Finance Management(County Governments) Regulations, 2015 which provides for a maximum of 3% to be utilized on administrative Cost.

Resolution 2

The department to incorporate extension services and follow up programs for better implementation.

Department Response

The Department has Staff at Sub County and ward level managing FISP. The department has Officers implementing the programme per ward and farm input support programme monitoring and evaluation report 2023.

Committee observation

Implemented

Resolution 3

THAT, the department should as a matter of urgency review the Bungoma County Policy Framework for Agriculture Input Support to Resource Poor and Vulnerable Small Holder Farmers policy and submit the same to county assembly for adoption before next financial year.

Department Response

The Bungoma County Agriculture sector policy 2023 was developed and approved by the assembly to anchor agriculture inputs in the department (Issue 5, Pg 13 of the Policy).

The Bungoma County Agriculture Inputs guidelines and services guidelines 2023 was developed and rejected by the assembly because they were not anchored by any County or National Act and they were not providing for substantive issues which ordinarily should be provided for in a policy or Act of the County Assembly.

After rejection the department embarked on developing an agriculture input bill and regulations for vulnerable farmers which is on-going.

Resolution 4

THAT, the Directorate of monitoring and evaluation is hereby directed to establish a robust monitoring and evaluation system that can inform future decisions to improve the programme.

Department Response

The department has designated M&E officer in the Agriculture directorate who does monitoring and evaluation on the programme. The department has in place Bungoma County FISP M&E status report 2023)

Committee observation

The resolution was implemented. However, the department should work on the challenges facing the programme as highlighted in the monitoring and evaluation report, 2023 and develop strategies to address them.

Resolution 5

THAT, the department should strictly supply the fertilizer and maize seed on time to boost productivity.

Department Response

The 2023/2024 inputs were delivered from 8/3/2024 to 15/3/2024. (Annexed Bungoma County delivery Notes)

Committee Observation

The Committee observed that the implementation of the House resolution remains **partially achieved**. While some progress has been made, the department has not fully complied with the directive to ensure timely supply of agricultural inputs specifically fertilizer and maize seeds across all regions of the County.

The delays in delivery were attributed by the department to procurement-related challenges and logistical constraints. As a result, several areas continue to experience disruptions in their planting schedules, undermining the intended impact of the programme on food security and agricultural productivity.

Resolution 6

THAT, the County should develop mechanism to introduce subsidy programme to enable sustainability.

Department Response

The Department has partnered with the National Government in the purchase of fertilizer to reduce the costs. The process of developing Frameworks (Bungoma County agriculture input equipment and services bill and regulations) is on-going to anchor sustainability.

Committee Observation

The Committee noted that the process is on-going.

Resolution 7

THAT, the department should put in place a system of countywide soil mapping that would inform the type of fertilizer to be availed to farmers under the farm input program.

Department Response

The Bungoma County Institutions Bill is currently in the assembly to strengthen, streamline and resource the Soil Testing Labs for improved service delivery within the county.

Committee observation

The process is on-going.

Resolution 8

The department is directed to develop an Agricultural Soil Management Policy which will address sustainable agricultural land management practices and submit the same to the county assembly within 90 days from the adoption of this report.

Department Response

The Bungoma County Agriculture Soil Management Policy, 2023 was developed passed by the County Assembly and launched for implementation. Partners through County Agriculture Sector Steering Committee (CASSCOM) have been mobilized to start implementing

Implementation status

Implemented

Resolution 9

THAT, the department should put mechanisms in place to deter beneficiaries from selling the farm input.

Department Response

The department has a designated maize value chain officer who collaborates with the vetting committee comprised of both the National and County Government officials for follow up. KIAMIS registered farmers from the National data base is used to ensure genuine farmers benefit.

Committee observation

The Committee observed with concern that, despite the presence of designated maize value chain officers within the department, beneficiaries continue to engage in the unauthorized sale of farm inputs supplied under the County Farm Input Support Programme.

This practice undermines the core objectives of the programme, which is aimed at supporting resource-poor and vulnerable smallholder farmers to enhance productivity and achieve food security. The Committee notes that this challenge points to gaps in enforcement, follow-up mechanisms and community sensitization on the appropriate utilization of the inputs provided.

Resolution 10

THAT, the department should put in a timely monitoring and Evaluation programme to access the social economic impact on the residents of Bungoma County

Department Response

The department has a designated M& E officer who does follow ups on the programme. (FISP monitoring and evaluation report Annexed)

2.2 Report on the Bungoma County Government nine months financial statements for FY 2022/2023 with respect to the department of Agriculture, Livestock, Fisheries, Irrigation and Cooperative Development

Resolution 1

THAT, the County Treasury should indicate how much each department received as exchequer for easy comparison in the quarters.

Department Response

S/no	Department	Approved Estimates FY 2022/23	Recurrent Expenditure	Development Expenditure	Total Expenditure
1.	Agriculture and Irrigation	762,285,317	190,678,419	29,998,308	220,676,727
2.	Livestock, Fisheries and Veterinary	146,588,536	76,860,537	0	76,860,537

3.	Cooperative development	34,237,478	7,265,618	0	7,265,618
4.	NARIGP	332,916,544	0	237,245,331	237,245,331
5.	ASDSP II	30,756,000	0	5,344,642	5,344,642
Total		1,232,138,834	274,804,574	272,588,281	547,392,855

However, the recommendation touches on mandate of the County Treasury on Financial reporting on preparation and submission of financial statements.

Committee observations

Implemented

Resolution 2

THAT, the department should break down the budget execution by programmes and sub-programmes into activities for easy scrutiny and oversight.

Committee Observation

The department submitted the budget execution by programmes and sub-programmes for the period under review.

Resolution 3

THAT, the department must submit departmental monthly/annual workplan and procurement plans for comparison purposes with the financial report by the committee.

Committee observation

Implemented

Resolution 4

THAT, the department must ensure compliance of Regulation 93(5) (6) of PFM Regulation 2015 on surrendering imprest and enhance imprest management system.

Department Response

The Department has been adhering to the imprest surrender regulation where the imprest holder is required to surrender his/her imprest within 7 working days failure to do so, a disciplinary action is taken to recover the full amount from salary of the defaulting officer.

Committee observation

The Committee critically examined the department's compliance with the Public Finance Management (County Governments) Regulations 2015, specifically Regulation 93(5) and (6), which mandates the timely surrender of imprests.

While the Department reported adherence to the stipulated imprest management protocols, the department reported unsurrendered imprest of Kshs. 496,000 for the period ended 31st December, 2024.

Resolution 5

THAT, the department must give pending bills first charge when it comes to budgeting.

Department Response

This has been adopted, a good example is this FY 2024/2025 where we committed approximately 80% of our Departmental budget allocation to clear pending bills.

Committee observation

The Committee notes with concern that despite claiming to have committed approximately 80% of the departmental budget, the department still has outstanding pending bill amounting to Kshs. 148,293,615 as at 31st December, 2024.

Resolution 6

THAT, the department must provide a report on what the County managed to collect from Chwele Fish Farm and Chwele Chicken Slaughterhouse in the period under review alongside Financial statements.

Department Response

The County managed to collect Kshs. 52,000 in form of Revenue from Chwele Fish Farm.
(evidence not provided)

Committee observation

Not implemented

Resolution 7

THAT, the department should provide a breakdown of NARIGP and ASDSP II implemented programmes

Committee observation

Department provided the annual report for 2022/2023 for the NARIGP and ASDSP II program. (Implemented)

Resolution 8

THAT, the department must submit expenditure reports in the sub-department of Livestock and Fisheries.

Committee Observation

Implemented.

2.3 Report on the status and impact of dams irrigation, schemes and water pans in the County

Resolution 1

THAT, the department should immediately transfer the land ownership of dams and irrigation schemes from the name of the defunct local authorities to the County Government of Bungoma and develop a comprehensive inventory.

Department Response

The Department in partnership with the Department of Lands started with securing dam land through surveying and demarcation before the transfer of land ownership, so far 13 dams have been surveyed and demarcated (Tongaren: Makolwolwe, Lutukayi/Karma, Namanjalala, Sinoko;Kanduyi: Namasanda, Khalaba B; Bumula:Bosio, Kimilili;Lutonyi, Webuye East:Wabukhonyi; Sirisia: Nabumukoya and Lukaala/Vitonge; Webuye West: MisikhuA Kabuchai: Muyayi)

There is a comprehensive dam inventory in place.

Committee observation

On-going

Resolution 2

THAT, the department is implored to lobby for funding through donors/partners to rehabilitate dams across the County.

Department Response

The Department is registering Irrigation Water Users with the office of the Attorney General in order to qualify for any funding. We have had some support from partners i.e. FAO came handy in survey and demarcation, NARIGP rehabilitated two dams Kapkara in Lwandanyi and Wabukhonyi in Siboti Ward.

Committee observations

Implemented.

Resolution 3

THAT, the Department should develop a mechanism to rehabilitate all the dams in the County in phases.

Department Response

In the current Financial Year, the Department allocated funds to rehabilitate Magemo dam in Ndivisi Ward in FY 2024/25.

Sitabicha dam in Siboti Ward is currently undergoing rehabilitation under FLLoCA programme.

Kapkara in Lwandanyi Ward and Siboti Ward were rehabilitated in FY 2023/24 under NARIGP.

NAVCDP plans to fund the irrigation component at Kapkara dam.

The Department is registering Irrigation Water Users Association with the Office of the Attorney General to qualify for funding from partners/donors. So far Kapkara and Wabukhonyi Irrigation Water Users Association have been registered in process of registering Kamusinga-Kamtyong Irrigation Water Users Association.

Implementation Status

Implemented

Resolution 4

THAT, the department should put in place security measures to avoid vandalism also sensitize the community to own the projects.

Department Response

There are Dam management committees in place to help control vandalism instances

There have been community meetings at the dam sites on need basis by Sub County officers

Committee observation

Not Implemented

Resolution 5

THAT, the department should expedite on the formation and training of dam management committees for sustainability of the dams.

Department Responses

Dam management committees have been formed and members' capacity built by the department with the support from partners i.e FAO and NAVCDP.

Committee observation

The department did not provide evidence of capacity building undertaken.

Resolution 6

That the Department and area leaders should sensitize the community on the potential economic activities that could be realized from the dams and irrigation schemes.

Department Response

Sensitization has been done with the support of partners. Public participation meeting for rehabilitation of Kisawayi and Napara dams in Siboti ward was done. Public participation report in place.

Implementation status

Partially implemented

Resolution 7

The department in liaison with the Department of Lands, Urban and Physical Planning undertake a land survey of all the dams and determine the acreage, establish boundaries, beacon the dams and reclaim the encroached lands.

Department Response

The exercise is ongoing with support from FAO, so far 13 dams have been surveyed and demarcated (Tongaren: Makolwowe, Lutukayi/Karma, Namanjalala, Sinoko;Kanduyi: Namasanda, Khalaba B; Bumula:Bosio, Kimilili;Lutonyi, Webuye East:Wabukhonyi; Sirisia: Nabumukoya and Lukaala/Vitonge; Webuye West: MisikhuA Kabuchai: Muyayi)

Committee observation

On-going

Resolution 8

That the Committee reiterates that the department should do due diligence/proper background check on contractors before awarding the contracts to build/rehabilitate dams in the County. Further the Department should carry out proper supervision of the projects during rehabilitation to avoid poor workmanship.

Department Responses

These parameters have been included in evaluation/assessment forms used during tender evaluation exercise.

The Department has brought on board the panel of expert to carry out supervision.

Implementation status

Not implemented

Resolution 9

The framework for county governments to implement national policies on environmental conservation relating to dams should be developed.

Department Response

The National policy was done in consultation with County officers, County issues were factored in hence the need for the department to domesticate it to County level.

Implementation status

Not implemented

Resolution 10

That the Department should address the pollution menace at Wabukhonyi dam in Kabuchai Sub-County and any other dam that is posing a risk to human and animal life.

Department Response

The problem at Wabukhonyi dam is a public health issue. The adjacent auction ring for livestock attracts market actors who dump waste. This waste finds its way into the dam.

There is also a graded road that directs run off full of silt and animal waste to the dam.

Necessary action should be taken by the public health team.

Implementation status

Not implemented.

Resolution 11

The department should liaise with the County attorney and institute legal action on the person who Grabbed land belonging to Maliki Dam in Milima Ward and any other grabbed land and ensure that the same is recovered, fenced and title deed transferred to the County Government Bungoma.

Department Response

The exercise of recovery of encroached land is on-going; so far 13 parcels have been recovered.

Committee Observation

The Committee observed with concern that the parcel of dam land belonging to Maliki Dam, located in Milima Ward, remains under illegal occupation. Despite previous recommendations and awareness of the encroachment, no tangible steps have been taken to reclaim the land and individual responsible for the encroachment continues to occupy the property.

2.4 The Bungoma County Co-operative Societies Act, 2023

Department Response

The Bungoma County Cooperative Societies Act, 2023 was enacted to regulate and promote the growth of Cooperative Societies within Bungoma County. The Act aims at enhancing the Socio-economic development of Bungoma County by fostering a robust Cooperative movement. The Act is being partially implemented, some of the parts being implemented include; Administration and offices, Rights and liabilities of members, Duties of Cooperative Societies, Amalgamation and division of Cooperative Societies, Rights and obligations of Cooperative Societies, Property and Funds of Cooperative Societies, dissolution, settlement of disputes.

Part III on Formation, organisation and Structure of Cooperative Societies, only article 1-11 is being implemented by the County, the rest of the Articles require regulations to be fully implemented. Additionally, Amalgamation and division of Cooperative Societies, Inquiry, Charges by Cooperative Societies, inspection and surcharge, general provisions all require regulations to implement. There is need to lobby for funds to finalize on the Bungoma County Cooperative Funds regulations that is at draft stage.

2.5 The Bungoma County Agricultural Produce Cess Act, 2017

Department Response

The County has not made any amendments to the Cess Act. However, drafted the Bungoma County Agricultural Produce Cess (Fund) Regulations, 2025, for better carrying out of the objects of the Act.

CHAPTER THREE

3.1 COMMITTEE OBSERVATIONS

Hon. Speaker,

The Committee made the following Observations:

1. Most of the committee recommendations from the year 2022 and 2023 have either been partially implemented or not implemented at all. In particular: Soil testing, dam rehabilitation, community sensitization and anti-vandalism strategies have been initiated but lack clear evidence of full implementation. Lack of Regulations continues to impede full realization of existing Acts like the Bungoma County Coöperative Societies Act, 2023 and Agricultural Produce Cess Act, 2017.
2. Although the Department claims to adhere to PFM regulations on Imprest surrender. The Committee observed instances of unsurrendered imprests and non-adherence to **Regulation 93(5)(6)** of the PFM (County Governments) Regulations, 2015.
3. Despite assertions of prioritization of pending bills, the department still had a pending Bill of Kshs. 148,293,615 as at 31st December, 2024.
4. The Committee observes that despite previous resolutions and clear evidence of land grabbing and encroachment of dams' land across the County particularly in **Maliki Dam (Milima Ward)** no decisive enforcement action has been undertaken. Encroachment of dams' land poses a grave risk to public assets, food security, infrastructure and future donor investments.
5. The Committee observes that while the department continues to implement key initiatives and programmes such as the Farm Input Support Programme (FISP) there remains a critical gap in the assessment of the actual socio-economic impact of these programmes on the intended beneficiaries. In the absence of Monitoring and Evaluation (M&E) reports, the County Assembly is unable to adequately determine whether the objectives of such programmes are being achieved which hinders effective oversight, transparency and evidence-based decision-making on budget allocations and policy direction.

3.2 COMMITTEE RECOMMENDATIONS

Hon. Speaker,

The committee made the following recommendations;

1. **THAT**, the department should develop and submit to the County Assembly the Bungoma County Agriculture Inputs and Services Support Bill, Regulations for the Bungoma County Cooperative Societies Act, 2023 and the Agricultural Produce Cess Act 2017 within Sixty days(60) from the adoption of this report. The department should also put in place strategies for full implementation of the Bungoma County Cooperative Societies Act, 2023.
2. **THAT**, the department must strictly enforce imprest surrender timelines and surcharge Accounting Officers for non-compliance as per PFM regulations.
3. **THAT**, the department should prioritize the clearance of all pending bills in subsequent budgets and to align future expenditures strictly with the approved budget ceilings and cash flow projections.
4. **THAT**, the department must liaise with the County Attorney to institute legal action against individuals who have encroached on dams' land and institute legal recovery and protection of encroached dams' land (e.g., Maliki Dam). Recovered land must be documented, titled and fenced. The County Executive Committee Member for Agriculture, Livestock, Fisheries, Irrigation and Cooperative Development should submit a progress report within Sixty (60) days from the adoption of this report.
5. **THAT**, the department should undertake a comprehensive socio-economic impact assessment of all programmes under its mandate i.e the Farm Input Support Program(FISP). The County Executive Committee Member for Agriculture, Livestock, Fisheries, Irrigation and Cooperative Development should submit to the County Assembly Monitoring and Evaluation reports within Sixty days(60) from the adoption of this report and on quarterly basis henceforth for accountability and performance of the programmes.
