## **COMMITTEE OBSERVATIONS AND RECOMMENDATIONS**

### **Committee General Observations**

The committee made the following observations.

1. The CECM for Finance has never reported on the progress or implementation status of the committee reports adopted by the House as understanding order 205 (2) , and article 183(3) of the constitution of which is always stated on every letter forwarding the House resolutions to the respective entity, the CECM is therefore in breach of the law.
2. Most of the recommendations were not implemented within the timelines set out by the committee and the House in its resolutions.
3. The department responded on three out of six reports requested to give implementation status.
4. The department despite being a compliance department never ensured surrender of imprest across the departments more so it's the most affected department.
5. The department had no work plan for implementation of County Assembly House resolutions.

### **Committee General Recommendation**

- 1) **THAT**, The CECM for Finance and Economic Planning going forward must submit the Implementation Status of every House resolution to the County Assembly within 60 days upon receiving a communication of adopted reports from the Office of the Clerk, the Committee on Finance and Economic Planning is henceforth going to monitor and track its adopted reports and report to the House accordingly in line with the Standing Order 205 2 and Article 183 of the Constitution.
- 2) That the two Chief Officers who should ensure compliance to Regulations 93, 5 and 6 of the PFM Act 2015 on surrendering of personally held responsible and surcharged failure to recover outstanding interests.

- 3) That the Chief Officers of the Department should incorporate House resolution in their work plan for effective and efficient implementation of the resolution. This should include timelines for achievement of specific recommendations.
- 4) That Upon adoption of this report, the County Executive Committee Member and his Chief Officers within 30 days should submit to the County Assembly implementation status of the remaining four reports which they did not respond.
- 5) Lastly, the County Executive Committee Member for Finance and Economic Planning should include implementation of the County Assembly resolution in their work plan.

All members of the committee appended their signatures to confirm contents in the Department's implementation of the House resolution report for the financial for the year 2022 and 2023.

I take this opportunity to welcome Hon. Jeremiah Kuloba to second the report.

**Mr. Speaker:** Yes Hon. Kuloba.

**Hon. Jeremiah Kuloba:** Thank you, Mr. Speaker. I rise to second the report that has been given by the Finance Committee and mainly the recommendations that have been read out. Most of them have not been implemented. It is a pity that this is the mother department that deals with Finance and when you look at the surrender of imprest, it is the department that is having highest unsurrendered imprests. So I call upon other members from other committee to make a follow-up of the same to ensure that there is compliance with the law. I second.

**Mr. Speaker:** Honourable members, allow me to propose a motion for debate.

*(Question proposed)*

Yes Honourable Majority Leader,

**Hon. Joseph Nyongesa:** Thank you, Speaker. First, allow me also I appreciate the mover of this report and the seconder though he was somehow off- guard but he has tried. Most of our failures are emanating from the County Treasury and I think through the committee some initiative will be put in place to ensure that House resolutions are being implemented

I am rising on one issue, No. 6 of Chapter 2. That the Department should liaise up with the County Public Service Board with a view of confirming 86 casuals who are working as revenue collectors

**Version 00**

**Revision 00**

**Disclaimer:** *The electronic Version of the Official Hansard Report is for information purposes only.*

*A certified Version of this Report can be obtained from the Hansard Editor.*

and who have demonstrated commitment, integrity and achieved targets by allocating money for wages on the supplementary to pay 35 months' arrears that is owed to them. I know there was implementation on the 194 casuals out of which 86 of them were from the Department of Finance, it is again being captured that we still have casuals who are collecting revenue, then as a county we are cheating ourselves.

The 194 had been confirmed so I don't know these 86 casuals; if they are still collecting revenue in this county then the committee should come up strongly to tell us these 86 are collecting under which law? And those that were confirmed among the 194, who are they? And who are these 86? Otherwise, we support and humbly request the committee to ensure that actually the Treasury improves its working system.

**Mr. Speaker:** Thank you, Honorable Leader of Majority. Hon. Kuloba...sorry not Kuloba, Aggrey Mulongo

*(Laughter)*

You know when two old people sit together; you end up confusing them Proceed.

**Hon. Aggrey Mulongo:** Thank you, Mr. Speaker, for giving me this chance to contribute towards this motion. First of all, I must thank the mover of the motion and the seconder who was caught unaware but at least he tried. This is a compliance department but what we have just heard from the report itself, it's not even complying and it's a compliance department.

There are so many things that they have not even complied they are the ones who bought the machine for revenue enhancement in the hospital and when you see the revenue trends in it is going down, and yet they are the ones who bought those machines for the enhancement of the revenue.

When you go through the report, when you go to the market, all those casuals that they have mentioned, if casuals are the ones collecting funds and they are not being paid, will that money really reach the revenue? This is the department that is supposed to comply and if the casuals have been there for some time, and they went to court, they have been taken back and they have not been employed, why? And why are they still collecting revenue? I support this but they must pull up their socks.

**Mr. Speaker:** Hon. Jack Wambulwa,

**Hon. Jack Wambulwa:** Thank you, Honourable Speaker. First of all, may I appreciate the mover of the motion and the seconder who came in unknowingly?

Finance being a compliance department, we expect it to perform but looking at the way the recommendations have been done in this report I think the sector committee must be awake. As we talk today we have had casuals that are very hardworking to this County. They might have not met the requirements to qualify to be confirmed like the Majority Leader had said but this are people who are leading in matters collection. They had not been paid for over 4 years. I don't know what measures were put in place because these are our sons and daughters to make sure as much as we release them to go out, there must be something to take care of them because they were working for the County. They have papers of appointment only but when it came to recruitment and confirmation they did not meet the requirements, this is something that we must address.

When it comes to matters collection as we talk the target is coming down day in day out, we don't know how we are going to achieve this target if indeed the current reshuffles that are going on are going to kill this county revenue collection. It is unfortunate that ongoing reshuffles are favoring maybe those who are well related to those in the department in the expense of performance. The Finance committee must reach out and find out why recent reshuffles. Are they reasonable excuses to make sure the reshuffle met the target or we are just going to reshuffle without seeing there is improvement at the end of the day in revenue collection, then we are going to fail at the end of the day and that's how we are going to incur pending bills?

We must do right things at the right time and as we address that let's make sure that these sons and daughters who have been dismissed after serving as casuals for 4 years without payment, yet they were appointed. As a House we need to budget for the same so that they do not go home crying. I support the report.

**Mr. Speaker:** Thank you, Hon. Jack. I will have Hon. Chemion.

**Hon. Francis Chemion:** Thank you, Honorable Speaker. I have one issue, after the House burning midnight oil to come up with the Acts of this House, the departments or the executive are not even implementing the laws, so why should we then be doing so much and yet what we put in place to assist the government run smoothly is not implemented. The laws that we have passed here; the Bungoma Finance Amendment Act 2023, Bungoma County Inspectorate and Compliance Enforcement Act 2023, Bungoma Disaster Management and Emergency Fund Regulation 2020, Bungoma County Public Market Amendment Act 2023, Bungoma County Revenue

Administrative Act 2023. The department was unable to furnish the committee with how they have implemented these laws and yet these are critical laws that if properly implemented it can improve revenue collection.

As a County Assembly, we need to push them again to come up with the regulations on all Acts that we have passed. So I urge all sector committees to push their respective departments to come up with regulations on those laws that have been enacted by this house so that we can have smooth implementation. Otherwise, the department must pull their socks to ensure that the county runs smoothly.

**Mr. Speaker:** Thank you, Hon. Chemion. Hon. Tony, Kindly reply to the motion.

**Hon. Tony Barasa:** Thank you, Honourable Speaker. I want to appreciate all who have come to support the motion and I also agree with them that some of the failures as stated by the Majority Leader is that our Executive are not taking seriously the resolutions of this House. That one has been married by Hon. Chemion's submission that indeed we are passing laws that are swept and kept under the carpet and this House has recommended in recommendation Number 1 that going forward as a department we are going to follow up on all resolutions as required by the Standing Orders and the Article 183 of the Constitution.

On the issues of casuals, I'm aware this report is for 2022 and 2023, I'm expecting between then and up to now status have changed. We don't know whether 86 casuals are absorbed or not because if you look at our recommendation they did not declare anything. Meaning where they sit they are not doing anything good to update this House. So I want to appreciate all those members who have supported and given their views and request that the House adopts the report for processing.

**Mr. Speaker:** Thank you, Hon. Tony. Honourable Members, before I am able to put a question to the said motion, Members this is my observation that as you pass these Bills, for them to come up with the required regulations, sector committees you have work to push departments and County Treasury so that we have regulations to operationalize these nice laws that have been passed by this House.

I think what Hon. Jack, Chemion, Aggrey and Majority Leader talked about the issue of regulations, members you must continue pressing them to come up with regulations, because the way they are behaving, they will never come.

So Members, allow me to proceed and to be able to put a question and to the motion before the House.
